

Technical Data

VALPRENE® VI 400

Disinfectant/Fungicide/Mildewstat

PROPERTIES

COLOR:
Blue

APPLICATION:
Spray (1:64 dilution)

pH OF CONCENTRATE: 12.4

SPECIFIC GRAVITY@ 25°C: 1.020

WEIGHT PER GALLON@ 25°C:
8.42 LBS.

EPA REGISTRATION NO:
10324-113-82770

EPA EST. NO. : 46269-DE-01

USDA AUTHORIZATION: C1

ONE-STEP DISENFECTANT

DISINFECTANT/ FUNGICIDE/ MILDEWSTAT

VALPRENE® VI 400 is an EPA-registered, quaternary ammonium chloride cleaner, disinfectant, fungicide and mildewstat designed for use on various surfaces subjected to microbial contamination. VALPRENE® VI 400 is a one-step concentrated formula that will disinfect hard, porous and nonporous surfaces. VALPRENE® VI 400 is especially useful as an all-in-one product for treating multiple surfaces as part of a complete mold remediation project. VALPRENE® VI 400 is designed to be diluted, two ounces per gallon of water, yielding 64 gallons of usable product per gallon of concentrate, making it an economical solution for your cleaning and disinfecting needs. VALPRENE® VI 400 is available in 1-gallon containers. (Packed 4 one-gallon containers per case)

Keep material from freezing.

For professional use only.

Not for use or sale in California

Application Guide

VALPRENE® VI 400

Disinfectant/Fungicide/Mildewstat

PREPARATION: Remove mold and settled spore contaminants promptly from area by trained professionals . Keep container sealed when not in use.

APPLICATION: Apply in a well ventilated environment. Apply directly with a sprayer using a coarse spray tip, to fully saturate affected areas. Allow the surfaces to remain wet for 10 minutes. After the surface dries, apply appropriate VALPRENE® mold resistant coating.

TYPICAL USES:

| | | |
|------------------|------------------------|----------------|
| • Exhaust Fans | • Refrigerated Storage | • Coils |
| • Drain Pans | • Air Conditioning | • Heat Pumps |
| • Smoke Damage | • Carpeting | • Hospitals |
| • Laundry Chutes | • Kennels | • Water Damage |
| • Vehicles | • Hotels | • Humidifiers |
